

**LPN TO RN
BRIDGE PROGRAM**
ASSOCIATE OF SCIENCE NURSING

Why should I consider the LPN to RN Bridge Program?

There is an ever-increasing demand for nurses and others in the health science fields. Ancilla College offers an LPN to RN Bridge Program. The Nursing program seeks to provide the student with the knowledge and skills necessary to provide direct care to a variety of individuals consistent with the health care needs of the people in the communities they serve. Students enrolled in the LPN to RN Bridge Program will have expert clinical experiences at various area hospitals in Plymouth, Knox, South Bend, Rochester, LaPorte, Winamac, and elsewhere.

The Health Sciences track is recommended for admission and consideration for the LPN to RN Bridge Program or other science majors. A current unencumbered Indiana LPN license is required.

What are the requirements for the LPN to RN Bridge Program?

Suggested Schedule of Classes: *(Concentration requirements in bold, blue type)*

The application form and Admission criteria to the college are available from the Admissions Office or available on-line at www.ancilla.edu. It contains information related to admission, transfer, and progression policies as well as other nursing student information. Once accepted for admission into the college, students may complete a separate application to the LPN to RN Bridge program.

Concentration Total: 72 credit hours **Gen. Ed. Requirements:** 36 credits **Nursing:** 36 credit hours

What can I do with an associate degree in Nursing?

The LPN to RN Bridge Program at Ancilla College will prepare you to take the NCLEX licensure exam for licensure as an RN in the State of Indiana. Students achieving an ASN often continue on to receive a bachelor's (BSN) or master's (MSN) for more career advancement opportunities. The ASN program will also prepare you to transfer to a four-year institution to further your studies.
